THE ELITE GROUP OF COMPANIES

The Elite Group of Companies starts at the heart with Elite GSS Ltd, founded in 2014 with a specific range of Non-mechanical Plant and Equipment solutions targeted at the Construction & Groundworks, Utilities, Civil Engineering and Infrastructure sectors.

The business has grown consistently each year in terms of revenue, clients, and product range, in turn we've quickly become a market leader for various industries and customers. Despite adverse market conditions and industry challenges, for example, the pandemic, Brexit or highly volatile material prices, our consistent hard work, innovation and focus on maintaining key partnerships and relationships, both with customers and our supply chain, has helped us continue to push forward and remain competitive within the market.

In recent years, numerous major changes have taken place establishing further growth of the business, this includes moving to a 40,000ft² location enabling the whole team and stock control to take place in one headquarter location. We've also invested heavily in our own fleet of vehicles for nationwide delivery, additional rental stock to support our customers and key projects, plus expansion of our installation services. This continues to ensure a consistent high level of service and support, speed of delivery and availability of stock.

As part of our growth and looking at other opportunities in the market, our next natural steps were to expand into a group of companies supply additional unique and innovative products, materials and complimentary services to our existing customers.

MultiMatts Ltd was established in 2017, specialising in ground protection, temporary access matting and event flooring systems. The range of internal and external products are for sale or hire with a key focus on recyclability and sustainability, beyond the core values of Elite GSS.

The company initially started as an online eCommerce business, which has gradually expanded into the company we know today, providing expert and knowledgeable advice and solutions from our team of consultants and the installation teams we have based around the UK. Not only do we support the commercial and industrial sectors, but we're also helping to support the Events, Leisure, Energy & Environmental, plus Renewable industries.

Elite Timber Supplies Ltd was established in 2021, supplying constructional timber, landscaping, and building products into the Building and Construction industries and our existing customer base.

The company was introduced as part of our expansion of the group, this has helped to offer an alternative source of materials and bespoke services to our customers, no matter what the requirements, we can ensure we serve our customers' needs throughout the project.

Quality sourcing methods globally contribute to continuously working towards a better future along with being certified for leading chain of custody certification schemes, including PEFC™ and FSC®.

The company is incredibly proud of the nationwide service provided by our skilled team, helping both locally based businesses, as well as being involved with large scale projects and many of the national housebuilders.

Revive Recycled Plastics Ltd was established in 2022 with joint ownership, the business and its core vision is to focus on converting post-consumer plastic waste into a diverse range of durable products for a wide variety of applications. The core values are similar to other companies within the Elite Group, but with an added focus and drive to considerably reduce the amount of waste sent to landfill or incineration and help the UK's net zero ambitions.

Key sectors like Government, Education & National Parks have helped the company grow and develop its range of products with many of them being durable & long-lasting, water-resistant, and often cost-effective compared to traditional alternative materials such as timber.

The Elite Group of Companies has ambitious plans to grow with significant investment planned over the next 12-24 months. Along with continuous improvements and learning from both internal and external training, motivation and good communication, we believe this will enable us to achieve these goals and create a positive and supportive working environment, along with the opportunity to capitalise on the UK & International market.

We believe that, with our focus and vision, we'll continue to expand our range of environmentally friendly and sustainable products not only for Revive, but throughout the Group of Companies.

The newest company of the group is Elite Insulation Supplies, established in 2024, reselling top-brand and quality insulation products to both trade and public customers. This company is an extension from Elite Timber Supplies for the building sector, offering nationwide services with fast delivery options that are competitively priced.

Its eCommerce website is aimed at straightforward product selection with a simple ordering and payment process, but without being overwhelming for novices or too simplified for professional tradespeople on any device.

OUR PROMISE TO YOU

We're committed to ensure that we deliver the best available products, along with an outstanding service and code of conduct.

These are demonstrated from three cornerstones:

Our Vision & Promise, Our Experience and Our Product Range.

Trust & Credibility

- ✓ Count on us for value, best practices, and to deliver on our promise
- ✓ Build a reputation to be the easiest company to do business with
- ✓ Our company brand is recognised and trustworthy

Experience & Loyalty

- ✓ Skilled and knowledgeable team who provide on-going support
- ✓ Positive attitude and proactive in all aspects of our business
- ✓ Reputation and out-of-the-box thinking for strong and dedicated partnerships

Satisfaction & Competitive

- ✓ Refined process and effective planning of Sale, Hire & Installation Service
- ✓ Offer time to listen to our customers challenges and fulfil requirements with high satisfaction
- ✓ Price promise, bulk discounts, same day & next day delivery

Our standout differences

- ✓ We don't stop when a sale is done – we're at your side for support & assistance
- ✓ Effective communication and transparency, feel confident from start to finish
- ✓ Consistently improving and innovating to give us the edge over others

OUR SERVICES

Whether you need large quantities or just a few products for your project, or perhaps don't have the budget to purchase them outright, we have many service options available for both short term and long term. The process is easy too!

- **EQUIPMENT HIRE**
- **BUYBACK & RECYCLE**
- **USED/SECOND HAND**
- **LEASE & FINANCE**
- **INSTALLATION**
- **NATIONWIDE DELIVERY**

ELITE IN ALL WE DO

Going over-and-above expectation is built into the way we work and part of our DNA, with innovation and specialist products for our customers around the UK and worldwide.

As part of our on-going support and commitment to our customers, we can offer a full R&D package enabling design and manufacture of bespoke products internationally. Our global supply chain and factories all align with our own core vision and values, enabling us to maintain long-term relationships and strength in our continuous support for customers.

INDUSTRIES

Construction, Civil Engineering, Traffic Management, Infrastructure, Oil and Gas, Energy, Demolition, Mining, Events, Leisure, are just some industries we've assisted for many public, private, and government organisations.

SERVICES

Recycling, Used, Installation, or Delivery are standard services that fit right into any project's timescale. For projects and scenarios, when budget limitations are a particular concern, Hire, Buyback, or Finance services can undoubtedly reduce overall costs.

PROFESSIONAL

The smallest gestures can go the furthest – our qualities and behaviours give great reason to work with competence, a consistent approach, and interact with an ethical conduct and confidentiality.

RELATIONSHIPS

We share similar values with partners, manufacturers, and distributors and leverage on joint skills and expertise, with mutual respect for the long-term – staying up to date in our fields and financially stable.

ACCELERATING OUR SUSTAINABILITY STRATEGY

SUSTAINABLE SOURCING

Sustainable sourcing has been a top priority from the start. We intend to manufacture and use a larger range of products made from 100% recycled materials with sustainability in mind. By monitoring our environmental impact, our near future goal is to have an increased use of fully recyclable products or those made entirely from 100% recycled materials.

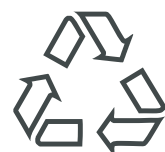

WASTE REDUCTION

By ensuring our products are sustainably sourced, we have contributed significantly to reduce landfill waste, as well as our overall environmental impact as a company. To keep the planet cleaner and healthier, we've taken the approach to repurpose plastic waste into products without compromising on quality.

CONSTRUCTION & DESIGN

For projects that require the local heritage and ecosystem to be preserved, you can depend on our products with low carbon footprint and on-site emissions — designed to protect the land and soil, helping to ensure healthy regrowth once the project is complete.

CLOSED LOOP RECYCLING

Choosing our Hire service helps limit the number of used products ending up in landfill. Furthermore, our cleaning option brings non-mechanical products back after use to look and perform like new. Make use of our buyback scheme to repurpose unused or waste products — following inspection, we reuse them in future projects as part of a closed-loop system.

PAYMENT OPTIONS

Are you a Reseller or Distributor?

Ask us about creating a partnership to work and offer non-mechanical products and dedicated services with each other.

- ✓ **Personalised pricing**
- ✓ **Products available**
- ✓ **Reliable delivery**
- ✓ **Stock reports**
- ✓ **Straightforward paperwork**
- ✓ **Account support**

Spread and consolidate payment

Finance and Lease terms that are manageable your way.

If you're unable to pay outright for items that you definitely need, we propose either of our Finance or Lease option to spread the cost of your purchase.

- Simple and straightforward to setup – same day approval
- Economical rates
- Fixed monthly payments
- 1-5 years term

Finance example for £10,000 (incl. VAT)

	3 years	4 years	5 years
Monthly Repayments	£322	£254	£210
Weekly Equivalent	£75	£59	£49

We accept payments with any of the following methods on our website or when you contact us.

*Coming from 2025

TEMPORARY ACCESS & GROUND PROTECTION

Our range of ground protection mats, roadway panels and event flooring products provide short and long-term access, for both small and large plant and machinery, over soft and sensitive ground.

SKU - PBLB

Dimensions - 1.4m x 175mm

Weight - 10Kg

Material - Steel

Spring Loaded Ladder Access Gate

SKU - SLLAGAF

Dimensions - 730mm x 960mm

Material - High Quality Steel

Stairwell Safety Handrail Posts

SKU - PTHP1

Dimensions - 130mm x 130mm x 1070mm

Weight - 6Kg

Material - High Quality Steel

Stair Tread Protector

SKU - PEST
Dimensions - 760mm - 185mm x 2mm - 3mm +
Material - Robust Card

Bufferboard

SKU - BUFFERBOARD
Dimensions - 2.4m x 1.2m x 3mm - 4mm +
Load - 35 N/cm2
Material - 100% Recyclable Honeycomb polypropylene

Protection Board Roll

SKU - PRB52
Dimensions - 50m x 1m x 2mm
Weight - 250gsm
Material - 100% Recyclable copolymer Polypropylene

Flooring Paper

SKU - PRP1
Dimensions - 225m x 0.9m
Weight - 90 gsm

Temporary Downpipe

SKU - PSD1
Dimensions - 165m x 150mm - 300mm +
Material - Polythene

Standard Protection Fleece

SKU - PFNS1
Dimensions - 50m x 1m x 1.5mm
Weight - 11.9Kg

Correx® Protection Board

SKU - PROTECTIONBOARD
Dimensions - 2m - 2.4m x 1m - 1.2m x 2mm - 4mm +
Weight - 250G - 600 gsm
Material - 100% Recyclable Copolymer Polypropylene

Diplast Fire Resistant Protection Board Roll

SKU - PRTF52
Dimensions - 50m x 1m x 2mm
Weight - 250gsm
Material - 100% Recyclable Copolymer Polypropylene

Fire Retardant Bufferboard

SKU - PHTF
Dimensions - 2.4m x 1.2m x 3mm - 4mm +
Load - 35N/cm2
Material - 100% Recyclable Honeycomb polypropylene

Breathable Protection Fleece

SKU - PFNBR1
Dimensions - 50m x 1m x 1.5mm
Material - Vapour Transmitting Membrane

Premium Protection Fleece

SKU - PFNB
Dimensions - 12.5m - 50m x 0.6m - 1m x 1.5m +
Material - Thick Fibre Layer Fleece

Protectall Self Adhesive Protection Fleece

SKU - PFNA1
Material - Hardwearing Non-woven Synthetic Fibres

Fire Retardant Protection Board

SKU - PBTF
Dimensions - 2.4m x 1.2m x 2mm - 4mm +
Weight - 250gsm - 600gsm
Material - 100% Recyclable Honeycomb polypropylene

Damp proof Membrane

SKU - PD +

Hard Surface Protection Film

SKU - PFM
Dimensions - 600mm x 25m - 100 +
Material - LDPE, LLDPE

Window Protection Film

SKU - PFW150
Dimensions - 50m - 100m x 150mm - 600mm +
Material - LDPE and LLDPE

Debris Netting

SKU - PSDN1
Dimensions - 50m x 2m
Weight - 70g/m2
Material - Heavy Duty Knitted Fabric

Scaffold Sheeting

SKU - PSDS1
Dimensions - 45m x 2m
Weight - 180g/m2
Material - HDPE and LDPE

Daltex Fire Resistant Breathable Protector

SKU - PFNFBR1
Dimensions - 100m x 1m x 1.5mm
Material - 100% Recycled/Recyclable Poly

Carpet Protection Film

SKU - CARPET-PROTECTION-FILM
Dimensions - 25m - 100m x 600m - 1.2m +
Material - LDPE and LLDPE

Card Floor Protection

SKU - PRC5
Dimensions - 80m x 1m +
Material - Recycled Materials

For more details about our products visit elite-gss.com or call and email to discuss further information with us.

Temporary Access & Ground Protection

Join mats together with our connection options, use tools for handling, and methods of storage.

2-way and 4-way Connectors

For use with light, medium & heavy duty mats, such as DuraMatt, E-Mat, Vis-Trak.

2-way and 4-way Joiners

For use with light, medium & heavy duty mats, such as DuraMatt, Stokbord, EcoTrak.

Hi-vis Connectors

Designed for use with specific mats, such as EuroTrak or Vis-Trak.

Ramp Edges

For use with pedestrian and event mats, such as Safe Site, EcoTile, Terraguard.

Drag Hooks

For easier handling of medium or heavy duty mats, such as DuraMatt, E-Mat, Vis-Trak.

Stillages

Storage for stacking medium to large mats. Box stillage for small parts also available.

Traffic Management Barriers

Protect the workforce and site areas with extra height, angles, or safety connections.

Fence & Hoarding Tops

Selection of mesh/hoarding for filled or solid barriers, such as SlotBlock, RB2000, GB2, Manta.

Barrier Ends & Stops

Protective male/female parts to complete the barrier system, for use with Manta or MASS.

Caps & Bungs

Caps to seal filling points and bungs to control emptying for waterfilled barriers.

Site Security, Storage & Fencing

Further improve the sturdiness, safety and visibility to deal with site, weather or lighting conditions.

Fence Feet & Wheels

Bases for stability or wheels to manoeuvre freestanding temporary fencing and gates.

Couplers & Stabilisers

Securely join fence posts and prevent movement or instability for mesh or hoarding panels.

Hi-vis Ballast Blocks

Reliable and visible weight to prevent movement and ensure safety of freestanding fencing.

Visibility, Signs & Soundproofing

Clearly mark any fence panels during day or night and block out disruptive sounds.

Bracket, Screws & Bolts

Connection to fence panel posts for anchoring and securing to many types of ground.

Did you know...

HIRE EQUIPMENT FOR ANY LENGTH OF PROJECT?

For a cheap choice, ask for our Used, Second Hand or Refurbished items.

Ground Stabilisation & Reinforcement

Fixings to keep meshes and grids permanently in the ground and give the area a finishing touch.

Fixings

Prevent movement of grids and geotextiles during installation, ensuring stability and longevity.

Markers & Caps

Delineate and define areas where grids are installed, for Grass Grid, Hanpave, EcoGrid.

Edging & Borders

Interlocking flexible parts to give functionality and an aesthetic appeal for EcoGrid.

There are universal choices and accessories designed specifically for product types only – please consult with us.
