

## POST AND CHAIN BARRIER

A cost-effective and simple barrier solution used to help cordon off areas for pedestrian and vehicle safety.

Our Post and Chain Barrier can be used both internally or externally and this system is ideal at creating restricted access areas and managing crowd flow.

The Post and Chain Barrier can be used within a wide range of industries sectors for both short and long term projects.

£ Cost Effective

Water filled base

1Kg

High Visibility

### Key Features

- ✓ Includes heavy duty water-filled base
- ✓ A removeable plug for easy drainage
- ✓ Red/white alternating colours make the posts highly visible
- ✓ 4 integrated chain eyes on the head cap
- ✓ Can be used both indoors and outdoors
- ✓ Quick and easily deployed
- ✓ Chains are available and sold separately
- ✓ Lightweight and easy to install and transport

### Budget Options

Perhaps you don't have the budget to purchase outright, we always have a variety of solutions for you.

- **Hire for short or long term**

### Top Tip

As an alternative option, please take a look at our [Extendable Cone Bar](#).

Our [Chapter 8 Barrier](#) and [Road Safety Cones](#) can be used in conjunction with our Post and Chain Barrier.

**Warehouses**

**Car Parks/Restricted Vehicle Access**

**Private Roads**

**Pedestrian Restricted Areas**

**How are they installed?**

Simply remove the cap from the water-filled base and fill with water.

Place in your desired location and slot the post into the hole in the middle of the base. Repeat the process on the other side. Once this has been done, slot the chain through the eyes on the head cap (at the top of the post) and feed through. Connect this to the post on the other side.

**Installation timings**

No specialist lifting equipment is needed. A water source is required.

**1 person required**

**Single line connection in 1 min**

**Grid Connection in 4 mins**
