

SAFE SITE MATTING

A fast and effective solution that can be used to provide both short and long term access and Ground Protection.

Safe Site Matting can be easily adapted to fit around obstacles and has a simple but effective tongue and groove connection system, which also acts as an effective drainage solution. Impact noise can also be significantly reduced.

A variety of Steel Fabricated Stillages are available

Specifications

Size:	1.2m [L] x 0.8m [W] x 22mm [D]
Weight:	20Kg
Load:	Suggested 10 tonnes, weight tested up to 20 tonnes (depending on ground conditions)
Material:	100% Recycled High Grade Rubber material
Colour:	Black as standard Other colours available (subject to minimum order quantities)

Key Features

- ✓ Low profile traction surface for pedestrian walkways, outdoor events and overflow car parks
- ✓ Unique non-slip surface for grip in all weather conditions
- ✓ Easy to clean and store
- ✓ Resistance to oil, chemicals and toxins
- ✓ Fast, simple and effective installation and connection
- ✓ Avoids health and safety issues
- ✓ Low transportation and handling costs

Budget Options

Perhaps you don't have the budget to purchase outright, we always have a variety of solutions for you.

- Hire for short or long term
- Used/second hand
- Buyback
- Lease or Finance

Top Tip

We also supply optional ramped edges to provide a complete non-trip solution, which enables it's use with wheelchairs and buggies.

As an alternative option, please take a look at our [PortaPath™](#), [Safe Walk](#) or [DuraMatt Lite](#).

How are they connected?

Connect, slot and repeat. Thanks to the tongue and groove design every single mat can be placed and connected quickly, effectively and safely.

Simply slot the mat on top of another mat and step down to secure the connection.

Installation timings

Safe Site Matting can be installed by one person without any effort, or the need for specialist equipment.

1 person required

Single line connection in 1 min

Grid connection in less than 2 mins

240m² area in approx. 6.5 hours (depending on ground conditions and site layout)

When driving on the mats, do not exceed 5mph

Eco-friendly and long lasting

Made from 100% Recycled High Grade Rubber material which is also 100% recyclable.

Additional information

Technical and Installation Guide

Elite Products Brochure

We advise not to use Steel Tracked vehicles with any composite mats unless pre-authorized and agreed beforehand, traversing and aggressive movement on the mats may cause damage to them and this will be the sole responsibility of the customer and user of the mats.
