TUFF TRENCH

A temporary solution for pedestrian access over excavations. Extremely high impact resistant and designed with strength and safety in mind.

Manufactured from 100% virgin material and 100% recyclable, the Tuff Trench is environmentally friendly and far more cost effective compared to alternative materials.

max 400Kg

7.2Kg

Resistant

Specifications	
Size:	1.2m [L] x 0.8m [W] x 40mm [D]
Weight:	7.2Kg
Load:	Suggested 400Kg (depending on ground conditions)

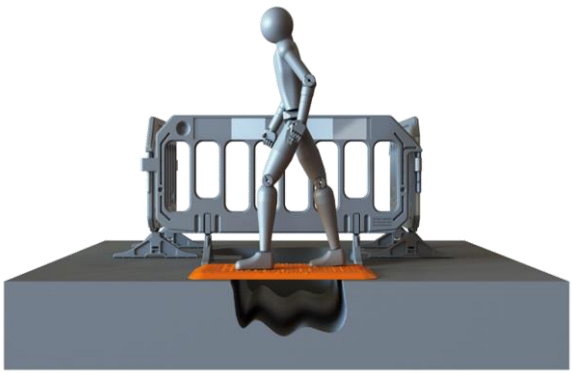
How are they connected?
Within each corner there is a fixing hole that must be bolted to the ground to keep the cover secure over the trench.



Installation timings
A fixing system should be used, depending on ground conditions.

1 person required, Handles on the bottom at either end to aid manual handling

Can be connected side-by-side in 5 mins

Grid connection in less than 15 mins

Long lasting quality
Made from 100% Recycled material, the Tuff Trench is a lightweight alternative to steel or wood covers and an ideal non-slip cover for apertures, bores or trenches.
