ELITE Ground Support Services

Product Guide

VIS-TRACK HEAVY DUTY ACCESS MATS

Designed to be used in low light and adverse weather conditions to highlight temporary roadways, walkways and overflow car parks.

The Vis-Track Heavy Duty Access Mats unique "non-slip" traction surface substantially improves vehicle grip and forward motion whilst reducing slideway slippage.

These mats are durable, hold a long lifespan and are suitable for both short and long-term projects.

A variety of Steel Fabricated Stillages are available

Specifications

Size:	2.4m [L] x 1.2m [W] x 12mm [D]
Weight:	36Kg
Load:	Suggested 50 tonnes (depending on ground conditions)
Material:	100% Recycled High Density Polyethylene (HDPE) and 100% recyclable
Surface:	Top: Non-slip surface Bottom: Diamond pattern surface

Key Features

- ✓ Double-sided, non-slip traction surface for optimal grip in all weather conditions
- ✓ Multiple connection points
- ✓ 6 hand holes for easy handling and installation
- ✓ Avoids environmental damage
- ✓ Reduces vehicle bogging
- ✓ Low cost transportation and handling
- ✓ Various connection options

Budget Options

Perhaps you don't have the budget to purchase outright, we always have a variety of solutions for you.

- **Hire for short or long term**
- **Used/second hand**
- **Buyback**
- **Lease or Finance**

Top Tip

These mats are designed to be man-handable, although technically heavy duty in nature and provide a functional heavy duty access solution.

As an alternative option, please take a look at our Heavy Duty Roadway Panels, Steel Road Plates or EuroTrak HD Access Mats.

ELITE Ground Support Services

How are they connected?
We have provided multiple connecting points for use with 2-way or 4-way connectors.
Place two mats in a line, either forward or sideways, for fast single joining with the 2-way connector.
Alternatively, create wider coupling with the 4-way connectors to fill large areas.

2-way & 4-way Connectors

Steel Fast Fit Connectors

Installation timings
There are 6 strategically positioned hand holes which makes the lightweight mat quick and easy to install.
A spanner, wrench or battery operated drill is recommended, do not over tighten.

2 people required. Hand holes at each side to aid manual handling

Single line connection in 3-5 mins

Grid connection in less than 7-10 mins

250m² area in approx. 3 hours (depending on ground conditions and site layout)

5 MPH

When driving on the mats, do not exceed 5mph

Eco-friendly and long lasting
Made from 100% Recycled High Density Polyethylene (HDPE) which is 100% recyclable.

Elite Products Brochure

We advise not to use Steel Tracked vehicles with any composite mats unless pre-authorised and agreed beforehand, traversing and aggressive movement on the mats may cause damage to them and the connectors and this will be the sole responsibility of the customer and user of the mats.
