Installation Guide

Step 1 - Preparation

Locate the curb area which you'd like the Kerb Buddy to be secured to.

Ensure that the height of angle is within the minimum and maximum for the outlined amount which the Kerb Buddy can sit at.

*Please ensure that you have a drill available as this will be needed to secure the system into place.

Step 2- Assembly

Simply place the Kerb Buddy onto the curb with the ramp sitting comfortably just over the curb onto the pavement.

Step 3 - Installation

Having placed the Kerb Buddy in the desired location, drill into the ground from the 4 fixing holes provided.

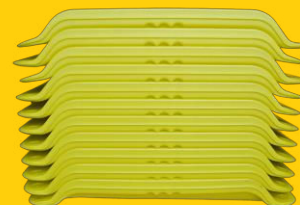

It's as simple as that! Your Kerb Buddy should now be secured into the ground and ready for use.

Did you know?

The Kerb Buddy can be easily stacked for efficient storage and transportation.

Saving you time and space on site.

Installation timings

1 person required

Single installation in 1 minute

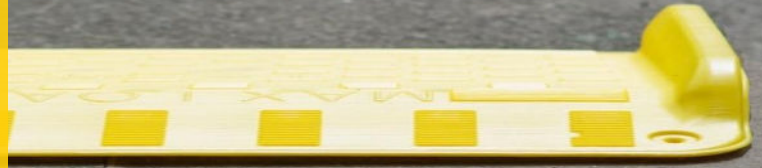

Eco-friendly and long lasting

Made from 100% Recycled High Density Polyethylene (HDPE) which is also 100% recyclable.

Kerb Buddy

A lightweight and durable design with an anti-slip pattern. The Kerb Buddy has been manufactured to reduce the risk of tripping with its low profile edges on the front and back.

Pedestrian/ wheelchair user safety is improved through its extra high sides.

Additional Information

The Kerb Buddy conforms to National Grid T/SP/E/42 and Safety at Street Works and Road Works – A code of Practice 2013.

The system comes in a standard hi-visibility yellow but it can be easily customised with colour and embossing for your company (subject to a minimum order quantity).

The Kerb Buddy has handles for easy lifting and only one person is required to secure the system into the ground, taking as little as one minute!

Handling and Storage

The Kerb Buddy is delivered to site in pre-wrapped packs and should be stored in original packaging on a flat, solid and free draining storage area until ready for use.

Gloves should be worn when handling the Kerb Buddy.
