### Key features

- Locking button to prevent unwanted spooling of tape
- Contains 9m (30ft) of high-visibility, fabric, retractable tape
- Tape end clip can wrap around pillars and attach to itself
- Robust, heavy-duty materials

### Product FAQs

**Q. What is the retractable tape made from?**

**A.** The tape is made from a high durability, fabric tape (UVA rating 6+).

**Q. Can I get it in a different colour?**

**A.** Yes. It's available in orange, red, silver, green blue, and yellow. It's also available with different tape styles. See the customisation page of this document for more information.

**Q. Can I get a unit without the tape?**

**A.** Yes. If you just want to connect a tape end clip to a unit, you can buy a Retractable Dummy Unit.

### Product Specifications

<b>Width: 145mm</b> 5.7"	<b>Height: 240mm</b> 9.4"
<b>Depth: 145mm</b> 5.7'	<b>Weight: 795g</b> 28oz

Simply pull out the tape and attach it to the next Retractable Tape Unit. Place on traffic cones or the Post & base system.
