

Magnetic Receiver Clip

Overview

The magnetic receiver clips allow the tape end to attach direct without the need for another retractable tape unit. The non-marking magnetic version is perfect for attaching the end clip to vehicles and metal shelving. Simply place the receiver clip onto the desired metal surface. Any retractable tape end clip will then slide into the receiver clip.

Key selling points

- Attach any retractable tape end clip to a magnetic surface to end a line

Key features

- Soft pads to prevent scratching to surfaces
- Use with retractable tape unit or XS unit tape end clips

Product Specifications

| | |
|----------------------------|------------------------------|
| Width: 80mm 3.1" | Height: 100mm 3.9" |
| Depth: 23mm 0.9" | Weight: 60g 2.1oz |

Receiver clips can be used with both the retractable tape and XS units.

Product FAQs

Q. Can I also screw the magnetic receiver clip to a wall?

A. No, the magnetic receiver clip has soft pads inserted into the back of the screw holes to prevent scratching to metal surfaces. You should purchase the wall receiver clip if you intend to screw the clip into position.

Wall Receiver Clip

Overview

The wall receiver clips allow the tape end to attach direct without the need for another retractable tape unit. Unlike the magnetic version, the wall receiver clips are intended for permanent/semi-permanent fixture. Simply screw the receiver clip into the desired position. Any retractable tape end clip (including the XS unit) will then slide into the receiver clip.

Key selling points

- Attach any retractable tape end clip to a wall to end a line
- Designed for permanent/ semi-permanent fixture

Key features

- Use with retractable tape or XS unit tape end clips
- Has four screw holes for affixing to walls

Product FAQs

Q. What type of screws should I use?

A. We recommend using a screw and roll plug for the chosen surface. The screw head should be at least 10mm in diameter. Fasten tightly with a screwdriver until the clip is secure. We also recommend using a washer to protect the clip.
