

Retractable Dummy Unit

Overview

If you want a retractable unit without any tape, then you need a dummy unit. Dummy units allow you to attach an end clip as with a normal retractable tape unit but come without any tape. You can use a dummy as an 'end unit', where the line of tape doesn't need to go any further.

Key selling points

- Built for purpose
- Robust and durable
- Light weight and easy to store

Key features

- A retractable unit without any tape, can be used to end a line
