

## Magnetic Support Bracket

### Overview

The magnetic support brackets hold the retractable tape unit in place without the need for cones or posts. The non-marking magnetic version is perfect for attaching the bracket to vehicles and metal shelving. Simply place the bracket onto the desired metal surface, then click the retractable tape unit into place on the bracket (use the orange locking clip to locate into the four corresponding holes on the retractable tape unit).

### Key selling points

- Attach a retractable tape unit to a metal surface without having to use a cone or post
- Holds the bracket securely in place - no risk of falling or slipping off surface

### Key features

- Soft pads to prevent scratching to surfaces
- Locking clip which corresponds to the holes on the retractable unit. Simply squeeze the clip to quickly release the retractable tape unit

### Product FAQs

**Q. Can I screw the magnetic support bracket to a wall?**

**A.** The magnetic support bracket can be screwed to walls, but please bear in mind that the magnet is very strong. It is recommended to purchase a wall support bracket if this is the main intention.

**Q. Can I attach the tape end clip directly to a wall?**

**A.** If you want to end a line (rather than start a line) at a wall, you can purchase wall or magnetic receiver clips (W/RECEIVER01, M/RECEIVER01).

### Product Specifications

<b>Width:</b> 124mm 4.9"	<b>Height:</b> 168mm 6.6"
<b>Depth:</b> 133mm 5.2"	<b>Weight:</b> 275g 9.7oz

The retractable tape unit simply clicks into place.

## Wall Support Bracket

### Overview

The wall support brackets hold the retractable tape unit in place without the need for cones or posts. Unlike the magnetic version, the wall support brackets are intended for permanent/semi-permanent fixture. Simply screw the bracket into the desired position, then click the retractable tape unit into place on the bracket (use the orange locking clip to locate into the four corresponding holes on the retractable tape unit).

### Key selling points

- Attach a retractable tape unit to a wall without having to use a cone or post
- Holds the bracket securely in place. Designed for permanent or semi-permanent fixture.

### Key features

- Locking clip which corresponds to the holes on the retractable tape unit. Simply squeeze the clip to quickly release the retractable tape unit.

### Product FAQs

**Q. What type of screws should I use?**

**A.** We recommend using a screw and roll plug for the chosen surface. The screw head should be at least 10mm in diameter. Fasten tightly with a screwdriver until the bracket is secure. We also recommend using a washer to protect the bracket.
